

NGUYEN ANH TUAN

IT Specialist / IT Operations & Support

ntuan.2502@gmail.com | <https://tun.io.vn> | Tran Bien, Dong Nai, Vietnam

IT Operations & Support Specialist with 4+ years of professional experience in maintaining, deploying, and automating enterprise IT systems.

Strong expertise in enterprise network design (Fortinet, Ruckus), server administration (Windows Server AD, Linux), and virtualization (Proxmox, VMware). Dedicated to digitizing asset management workflows (Snipe-IT) and developing automation scripts (Python, PowerShell, Node.js) to reduce manual tasks, ensuring systems run continuously and securely.

WORK EXPERIENCE

03/2025 – Present | AMATA CITY LONG THANH JOINT STOCK COMPANY

IT Operations Engineer

- Designed and established a new enterprise network infrastructure utilizing firewalls (Fortinet) and implemented modern smart conference room solutions.
- Developed internal business applications to support and optimize daily workflows.
- Deployed and administered IT asset management software (Snipe-IT) to streamline and digitize inventory tracking.
- Provided comprehensive end-user technical support (IT Helpdesk) and troubleshooted daily system issues.

03/2023 – 02/2025 | DYM MEDICAL CENTER VIETNAM COMPANY LIMITED

IT Operations Engineer / Bridge Engineer

- Administered clinic IT infrastructure (servers, networks, cameras, UPS) across multiple branches, ensuring 99% server uptime and continuous security monitoring.
- Deployed and managed a Picture Archiving and Communication System (PACS) across 3 branches (District 1, District 7, Hanoi), reducing medical data retrieval time by 70% and minimizing printing costs.
- Acted as a Bridge Engineer for core software projects (DYM MCLinic, Web Booking, Medical Mobile App); gathered requirements from Japanese clients, consulted on UI/UX, and collaborated with external vendors (TWIN, Diem Viet).

- Managed and allocated comprehensive IT resources including 60+ computers (PCs), email systems (Google Workspace - 70 users), internal phone systems (IP PBX / VOIP), and messaging services (SMS Brandname).
- Developed automation scripts using (PowerShell) to process electrocardiogram (ECG) files, reducing manual errors by 50% and saving 25 minutes daily.
- Built and deployed a headless CMS (Strapi), database (PostgreSQL), and server (IIS) to support the mobile application and marketing landing pages.

09/2022 – 02/2023 | DYM MEDICAL CENTER VIETNAM COMPANY LIMITED

IT Collaborator

- Handled the logistics and installation of medical hardware and IT equipment for external medical examination events.
- Configured PCs and connected ultrasound machines to optimize on-site medical checkup workflows.

09/2020 – 08/2022 | FREELANCER

Freelance Developer & Digital Content Creator

- Developed small-scale automation tools and provided technical support for system troubleshooting upon client requests.
- Set up and administered operating systems (Linux, Windows Server) for testing and deploying software applications (Node.js, React).
- Produced, edited, and managed digital video content on the (YouTube) platform.

03/2020 – 08/2020 | TIDI VIETNAM COMPANY LIMITED

Backend Developer

- Designed and built backend API systems utilizing the framework (.NET / C#).
- Designed databases (SQL Server) and optimized query performance for business workflows.

04/2019 – 12/2019 | SON VIET DIGITAL SOLUTION CONSULTING COMPANY LIMITED (PIXIO STUDIO)

Backend Developer

- Developed and maintained API architectures for internal application projects utilizing the framework (PHP Laravel).

- Optimized processing logic and managed databases (MySQL) to maintain source code stability.
